The American Association for the History of Nursing (AAHN) is a professional organization open to everyone interested in the history of nursing. Originally founded in 1978 as a historical methodology group, the association was briefly named the International History of Nursing Society. The purpose of AAHN is to foster the importance of history as relevant to understanding the past, defining the present and influencing the future of nursing.

Cleveland Clinic is honored to host the 30th Annual Conference of the American Association for the History of Nursing. Throughout the conference, we will celebrate the rich, vibrant history of the nursing profession and recognize 30 years of historical scholarship. The Stanley Shalom Zielony Institute for Nursing Excellence oversees the practice, development and education of more than 11,000 nurses within the Cleveland Clinic health system in inpatient, outpatient, rehabilitation and home care fields.
