The Low Energy Neurofeedback System (The LENS)

The LENS is an entirely new approach in neurofeedback. This treatment can dramatically decrease the number of treatments for many of your clients. You can learn more about the Low Energy Neurofeedback (LENS) approach in *The Healing Power of Neurofeedback*, by Stephen Larsen, Ph.D., the double-issue of the *Journal of Neurofeedback* devoted entirely to the LENS as well as *LENS: The Low Energy Neurofeedback System*, both edited by D. Corydon Hammond, Ph.D. Training DVDs are also available for purchase on our website: www.ochslabs.com. We invite you to attend one of the following trainings: The Foundations training is designed to teach assessment, introductory treatment planning, and software operation. The Advanced is designed to teach advanced assessment, reassessment, and treatment planning.

2007 Training Schedule in the LENS

**Advanced LENS Training – Chicago, IL**
by Len Ochs, Ph.D.

*June 1 - 3, 2007*
Registration: www.ochslabs.com or (707) 823-6225

**Foundations of LENS Training – Sebastopol, CA**
by Len Ochs, Ph.D.

*June 8 – 10, 2007*
Registration: (845) 658-8083

**Advanced LENS Training – Washington, DC area**
by Len Ochs, Ph.D.

*June 22-24, 2007*
Registration: www.ochslabs.com or (707) 823-6225

**Foundations of LENS Training – Sebastopol, CA**
by Len Ochs, Ph.D.

*July 27-29, 2007*
Registration: www.ochslabs.com or (707) 823-6225

**Advanced LENS Training – Stonington, CT (Eastern CT)**
by Len Ochs, Ph.D.

*Aug 3 – 5, 2007*
Registration: Henry Mann, MD (860) 536-6023

**Foundations of LENS Training – ISNR & BSC San Diego, CA**
by Stephen Larsen, Ph.D.

*Sept 3 - 5, 2007*
Registration: (845) 658-8083

**Advanced LENS Training – ISNR & BSC San Diego, CA**
by Len Ochs, Ph.D.

*Sept 3 - 5, 2007*
Registration: www.isnr.org / www.biofeedbackcalifornia.org

**Vendor Workshop – ISNR & BSC San Diego, CA**
by Len Ochs, Ph.D.

*Sept 10, 2007*
Registration: www.isnr.org. Registration is free.

**Foundations of LENS Training – Sebastopol, CA**
by Len Ochs, Ph.D.

*November 2 – 4, 2007*
Registration: www.ochslabs.com or (707) 823-6225

**Advanced LENS Training – New Paltz, NY**
by Len Ochs, Ph.D.

*Nov 30 – Dec 2, 2007*
Registration: (845) 658-8083

www.ochslabs.com (707) 823-6225 8151 Elphick Lane, Sebastopol, CA 95472
This little piggy didn’t shop at bio-medical.com

You’ll find the products that meet both your needs and budget at bio-medical.com. We carry equipment, supplies and training from all of the major biofeedback and neurofeedback manufacturers. We have what you need, and we won’t break the bank.

Neurofeedback just got easier!

THE ATLANTIS SYSTEM FROM BRAINMASTER TECHNOLOGIES is a new technology designed for beginner, intermediate, and advanced neurofeedback and biofeedback applications. Available in two modules (4 or 8 channel), Atlantis provides 24-bit, rapid, continuous phase-sensitive sensory immersion EEG biofeedback. It supports conventional neurofeedback, is expandable for peripheral biofeedback, and provides simultaneous impedance monitoring on EEG as well as peripheral channels. The system is self-contained, and all data acquisition, signal processing, and stimulation are controlled within the shirt-pocket-sized hardware module capable of sending data to a PC for processing using the BrainMaster software for Windows.

Visual, Auditory, Tactile Feedback System

STTS offers quality training from industry leaders!

STRESS THERAPY SOLUTIONS is developing university-style education that begins with an introductory, comprehensive certificate program. Our faculty members are clinicians with active practices; they are writers of core textbooks and cutting-edge articles; they are researchers and software developers with decades of clinical practice behind them. What you learn at STTS is based on solid neurofeedback and biofeedback research, in addition to clinical experience.

Our comprehensive workshop series provides three levels of neurofeedback training: introductory (36 CE hours for BCIA certification requirements with online mentoring available after completion), intermediate, and advanced. Training programs include deep states, peak performance, meditation, introduction to brain mapping and QEEG, Z-score training, and other advanced skills.

STS offers quality training from industry leaders.

All of your education needs under one comprehensive educational system.
Only one biofeedback provider delivers such a breadth of professional training programs and equipment. Stens offers professionally run biofeedback and EEG certification programs, as well as application workshops in QEEG, Advanced Applications, CES/AVE, HRV and Capnography. You’ll learn with the most experienced teachers and train with all the most recent equipment. Our courses meet all the didactic requirements for BCIA. It's easy to see why there's only one clear choice when it comes to biofeedback.

Harness the Power of Therapeutic Breathing
RESPerate® is the only device-guided breathing treatment available OTC and indicated to lower high blood pressure and reduce stress

“We found that RESPerate was very helpful to many of our patients who experience shallow breathing. And patients, some of whom don’t have high blood pressure, say it simply helps them relax. We use it for patients to take home as a means of reinforcing our biofeedback work with them.”
Leonard Schwartzburg, PhD
Clinical Psychologist & Director of the Clinical Institute of Behavioral Medicine, Berkeley, California

RESPerate:
- Stand-alone breathing retrainer
- Analyzes patients’ breathing patterns and composes personalized inhaler and exhale tones
- Proven in 7 clinical studies – 14/8 mm Hg sustained average BP reduction
- Demonstrated to reduce sympathetic nervous system activity
- Relaxing, pleasant and easy to use

Join the growing number of biofeedback therapists effectively utilizing RESPerate to lower blood pressure and to retrain breathing, both in clinical sessions and for home use. Over 60,000 individuals are currently using RESPerate worldwide.

Two Professional Programs to suit your needs:

✓ Professional Dispensing Program
Rent or sell RESPerate directly from your practice.

✓ New Professional Coupon Program
Provide your patients with coupons worth $50 off the purchase price of RESPerate.

Introduction to Biofeedback
An AAPB Independent Study Program

AAPB has raised the bar in home study opportunities by unveiling its new education opportunity. Edited by Andrew Crider, PhD, and Doil Montgomery, PhD, this new program is part of the constellation of services offered to our members and the public.

It is designed to be a self-paced, in-depth educational experience for those individuals interested in pursuing their certification through the Biofeedback Certification Institute of America (BCIA), or those pursuing continuing education in biofeedback and its applications.

**History and Principles**
by John Arena, PHD, and Trishul Devineni, PhD ($60)

**Stress and Illness**
by Andrew Crider, PhD ($60)

**Psychophysiological Recording**
by Doil Montgomery, PhD ($120)

**Neuromuscular Applications**
by Jeffrey Cram, PhD ($120)

**Electroencephalographic Applications**
by Lynda Thompson, PhD ($60)

**Adjunctive Interventions and Assessment**
by Donald Moss, PhD ($120)

**Professional Conduct**
by Sebastian Striefel, PhD ($60)

**Autonomic Nervous System: Part One — Basic Psychophysiology**
by Christine Hovanitz, PhD, and Carolyn Yucha, PhD, and
**Part Two — Specific Biofeedback Applications**
by Angele McGrady, PhD, and Richard Gevirtz, PhD ($120)

Save money and buy the whole series for $695!
This program offers 48 hours of CE credit.

AAPB is approved by the American Psychological Association to offer continuing education for psychologists. AAPB maintains responsibility for the program. Credit is provided for the term of the program, i.e. an hour lecture provides an hour of credit.

Visit www.aapb.org for details or to order one or more modules.
The *Journal of Psychophysiology* is an international journal designed to provide an outlet for original research in all areas employing psychophysical techniques, or of relevance to their interpretation. Contributions are welcomed from psychology, physiology, clinical psychology, psychiatry, neurosciences, pharmacology, and genetics. The journal also acknowledges the important contribution animal research makes to these areas. In addition, communications on new methodology, such as recording technology, data reduction, statistical methods, computer hardware and software, are also encouraged. Apart from reports of original research, consideration is given to reviews and theoretical papers, including open peer commentary, when appropriate. Space is also allocated for letters to the editors, book reviews, announcements of meetings, and proceedings of society meetings. A high quality is ensured by rigorous editing.

Please note: Starting in 2008, this journal will only be published online.
WHETHER YOU ARE EMPLOYED, SELF-EMPLOYED, FULL-TIME OR PART-TIME, HAVING YOUR OWN INSURANCE POLICY CAN HELP YOU PROTECT YOURSELF AGAINST THE UNEXPECTED

Now you can get the protection your biofeedback practice needs with the AAPB-endorsed Professional Liability Insurance Program. This exclusive program makes competitive health and professional liability insurance available to AAPB members.

It's easy to apply for coverage. Simply visit the AAPB Insurance Center online. You can apply, quote and purchase coverage from the convenience of your computer. You can purchase your policy with a credit card and will receive a copy of the policy via email. Fast. Simple. Easy.

Receive a fast, free, no-obligation quote! >>>

Biofeedback is an international, interdisciplinary news magazine devoted to the study of physiological systems, cognition, social and environmental parameters, and health. Published quarterly by the Association for Applied Psychophysiology and Biofeedback (AAPB), Biofeedback contains original research, conceptual and theoretical articles, evaluative reviews, case studies, and clinical notes and observations.

Serving: Clinicians, researchers, and other professionals engaged in the practice or teaching of psychophysiology, psychology, physiology, hypnosis, biofeedback, physical therapy, nursing, counseling, and pain management
