

2007 Silent Auction for AAPB

The Association for Applied Psychophysiology and Biofeedback (AAPB) is an association of dedicated health care professionals and researchers that cut across the scope of physical therapy, clinical psychology, psychiatry, physical rehabilitation, dentistry, nursing and education. It was founded in 1969 and has approximately 2,000 members. We are dedicated to improving human welfare and health by advancing knowledge and application of clinical biofeedback and applied psychophysiology.

Your tax-deductible donation is being sought to help us in continuing our mission by raising funds at our Annual Meeting Silent Auction. This year's meeting will be our 38th convention and will be held in Monterey, California from February 15 – 18, 2007. Thank you for your consideration in donating to this year's event. You will receive a post convention letter that will acknowledge your tax-deductible gift and the reported value of that donation. Please advise me as to the full market value to declare and any minimum bid that you may need met as dollars back to you for your donation, if necessary.

I am hoping to have as many items physically on the Silent Auction Table as possible and will be happy to help in such delivery to Monterey.

Thank you for your gift to our important fund raising event.

Sincerely,

William G. Barton, Ph.D. Chairman of Silent Auction for AAPB 2007

CC: Joanne Wakerlin, R.N. Co- Chair
